

Library Technology Product Guide

EvolvePlus ILS

EvolvePlus ILS is the most fully-featured competitively priced library management web software available in Australia today!

The EvolvePlus solution contains the usual core library function modules that all libraries are accustomed to with additional feature-rich smart applications designed to make your job easier. With its unique database design, this flexible library solution offers extensive customisation options to suit any library.

VuFind Discovery

See your catalogue come alive with the VuFind Discovery Layer. Our VuFind managed service enables your library to offer Patrons a rich Web 2.0 experience and an integrated Mobile phone interface to your ILS catalogue.

It features real-time ILS connectors, OAI syndication, social media technologies, mashups, similar resource suggestions, auto-complete, faceted results, reviews and content enrichment integration.

Discovery Gateway

The EvolvePlus Discovery Gateway is an essential tool for expanding the discovery of knowledge and information across the entire organisation.

It provides a single unified web portal that can search across a wide range of electronic resources used within the organisation, include electronic publications, library catalogues, content management systems, web sites, intranets, digital archives, and more.

People Counters

Our wireless people counter solutions feature a portable, battery powered & lightweight design that allows installation on virtually any surface.

The Display Counter model is equipped with an easy to read display, whilst the RF Counter model combines the automatic captures of data to a PC or server with a web browser application to analyse the statistics by hour, day, week, month and year in table or graph formats.

My Reading List

Manage kids, teen and adult reading programs with this online platform. With extensive feature configuration and customization options, you can easily create Reading Record sites that meet your library's needs.

My Reading List features include: an online self-service patron signup, reading & progress logging, achievement markers, certificate printing and mediated reviews.

Research Plus

ResearchPlus integrated Knowledge & Request Management facilitates rapid information discovery and simple processes for capturing "Ask a Librarian" requests. Manage, route & prioritise all in-bound research requests with escalation rules & automatic email notification.

ResearchPlus can save valuable time with the live suggest feature displaying relevant articles from the knowledgebase helping avoid duplicate requests.
